CORRECTED Funding Opportunities Weekly Digest – January 20, 2021

Federal

United States Department of Agriculture
National Institute of Food and Agriculture

CORRECTED

Equipment Grants Program

Serves to increase access to shared-use special purpose equipment/instruments for fundamental and applied research for use in the food and agricultural sciences programs at institutions of higher education, including State Cooperative Extension Systems. The program seeks to strengthen the quality and expand the scope of fundamental and applied research at eligible institutions, by providing them with opportunities to acquire one major piece of equipment/instruments that support their research, training, and extension goals and may be too costly and/or not appropriate for support through other NIFA grant programs.

Limited Submission Opportunity – Deadline for Internal Proposals: 2/8/21

national levels. The CPPM program supports projects that will ensure food security and respond effectively to other major societal pest management challenges with comprehensive IPM approaches that are economically viable, ecologically prudent, and safe for human health. The CPPM program addresses IPM challenges for emerging issues and existing priority pest concerns that can be addressed more effectively with new and emerging technologies.

Limited Submission Opportunity - Notification of Interest to ORE: 1/29/21

shortages in the U.S. Ultimately, this program will bolster the capacity of private practitioners to provide food animal veterinary services in designated rural veterinarian shortage situations.

Application Deadline: 4/16/21 | [View Opportunity](#) | [View RFA](#)

Enhancing Agricultural Opportunities for Military Veterans Competitive Grants Program

Provides grants to non-profits to increase the number of military veterans gaining knowledge and skills through comprehensive, hands-on and immersive model farm and ranch programs offered regionally that lead to successful careers in the food and agricultural sector. The program encourages the development of training opportunities specifically designed for military veterans. AgVets projects will offer onsite, hands-on training and classroom education leading to a comprehensive understanding of successful farm and ranch operations and management practices.

Application Deadline: 3/23/21 | [View Opportunity](#) | [View RFA](#)

Food and Agriculture Service Learning Program (FASLP)

Program to increase the knowledge of agricultural science and improve the nutritional health of children. The program's goal is to increase the capacity for food, garden, and nutrition education within host organizations or entities, such as school cafeterias and classrooms, while fostering higher levels of community engagement between farms and school systems by bringing together stakeholders from distinct parts of the food system. The initiative is part of a broader effort to not only increase access to school meals for low-income children, but also to dramatically improve their quality.

Application Deadline: 5/3/21 | [View Opportunity](#) | [View RFA](#)

Education and Workforce Development

Focuses on developing the next generation of research, education, and extension professionals in the food and agricultural sciences. In FY 2021, EWD invites applications in seven areas: agricultural workforce training; professional development for agricultural literacy; training of undergraduate students in research and extension; fellowships for predoctoral candidates; fellowships for postdoctoral scholars; a new program for food and agricultural non-formal education; and a FY 2021-only program for evaluation of NIFA's agricultural literacy and workforce development portfolio.

Application Deadline: 7/1/21 | [View Opportunity](#) | [View RFA](#)

Engineering-Scale Testing and Validation of Algae-Based Technologies and Bioproducts

This FOA seeks novel research and development of algae-based technology to utilize anthropogenic CO₂ as a feedstock.

Application Deadline: 3/2/21 | [DE-FOA-0002403](#)

Bench Scale Testing of Direct Air Capture Components (TRL 3) and Initial Engineering Design for Carbon Capture, Utilization & Storage Systems from Air (TRL 6)

This FOA is specifically focused on developing lower cost, scalable technologies for CO₂ capture from air.

Application Deadline: 3/5/21 | [DE-FOA-0002402](#)

2021 NPS Preservation Technology and Training Grants

Opportunity to create better tools, better materials, and better approaches to conserving buildings, landscapes, sites, and collections. Innovative research that develops new technologies or adapts existing technologies to preserve cultural resources. Grants will support specialized workshops or symposia that identify and address national preservation needs. As well as how-to videos, mobile applications, podcasts, best practices publications, or webinars that disseminate practical preservation methods or provide better tools for preservation practice.
