Funding Opportunities Weekly Digest – February 2, 2021

Check out the [OSP website](#) to **View More [Funding Opportunities](#)** to consider.

Federal

United States Department of Agriculture
National Institute of Food and Agriculture

Equipment Grants Program

This program serves to increase access to shared-use special purpose equipment/instruments for fundamental and applied research for use in the food and agricultural sciences programs at institutions of higher education, including State Cooperative Extension Systems. The program seeks to strengthen the quality and expand the scope of fundamental and applied research at eligible institutions, by providing them with opportunities to acquire one shared-use piece of equipment/instrument that supports their research, research training, and extension goals and may be too costly and/or not appropriate for support through other NIFA grant programs. The program emphasizes shared-use instrumentation that will enhance the capabilities of researchers, educators, and extension specialists both within and outside the proposing organization.

Limited Submission Opportunity | Internal Deadline: 2/8/21

State

Now Accepting Nominations for the 2021 Governor's Environmental Stewardship Awards - To Recognize Outstanding Achievements

The Governor's Environmental Stewardship Awards (GESA) are presented

[Subscribe](#)[Past Issues](#)[Translate ▼](#)

for successful environmental projects and conservation measures. Nominations are currently being accepted for the 2021 Governor's Environmental Stewardship Awards. Please help us identify organizations and individuals who are improving the quality of Tennessee's land, air, and water. Self-nominations are encouraged. GESA are the most prestigious environmental and conservation awards in the state.

Nomination Deadline: 4/1/21 | [View Opportunity](#)

International

Trees Outside Forests in India (TOFI) Activity

The purpose of this opportunity is to expand the planting of trees outside of forests in India for enhanced provision of ecosystem services, especially carbon sequestration, and increased inclusive economic opportunities. Through the TOFI activity, USAID/India will support the Government of India (GoI) and other stakeholders to increase the uptake of trees outside of forests in India by: strengthening an enabling environment that promotes and incentivizes planting of trees; increasing economic opportunities from trees outside of forests; and improving access to information to help scale TOF in the country.
