Funding Opportunities Weekly Digest–January 18, 2022

To notify the Office of Sponsored Programs of your intent to apply for any of these or other grant opportunities, please submit a [Proposal Intake Questionnaire](#) to provide OSP with preliminary information.

Check out the [Office of Sponsored Programs website](#) to view more [funding opportunities](#) to consider.

UT to Host National Science Foundation Chief of Research Security Strategy and Policy

Rebecca Keiser, chief of research security strategy and policy at the National Science Foundation, will visit UT Knoxville to discuss the US government's coordinated efforts to ensure the security of federally funded research while simultaneously promoting international collaboration to advance fundamental scientific knowledge for the benefit of the global community.

Date: January 28, 2021

Time: 9:30–10:30 a.m.

Location: Student Union, Room 169

For additional information, please contact [Jennifer Brown](#) at the Office of Research, Innovation and Economic Development

ONE HEALTH
INITIATIVE

One Health Initiative

We are pleased to announce that the [UT One Health Initiative](#) has launched its second seed grant competition. The goal of the program is to create transdisciplinary synergies among faculty, staff, students, and external collaborators that embrace a One Health approach to investigations. Several small awards (up to \$40,000) are available, including one exploring healthy, living shorelines on the Tennessee River (in partnership with [Tennessee RiverLine](#)) and one globally focused award addressing one or more of the [United Nations Sustainable Development Goals](#) (in partnership with UTIA's [Smith Center for International Sustainable Agriculture](#) and the UT Knoxville [Center for Global Engagement](#)).

Findable Accessible Interoperable Reusable Open Science Research Coordination Networks (FAIROS RCN)

This program seeks to create three-year networks that will foster catalytic improvements in scientific communities focusing on the FAIR guiding principles and Open Science best practices. This program will support a broad range of activities to advance the means by which investigators can share information and ideas, coordinate ongoing or planned research activities, foster synthesis and new collaborations, develop community standards, and in other ways advance science and education through communication and sharing of research products through FAIROS strategies.

Application Deadline: 4/12/22 | [View Opportunity](#)

Molecular Foundations for Biotechnology

This initiative calls for fundamentally new approaches in molecular sciences to drive new directions in biotechnology, a critical and emerging technology of the

Innovative Ways to Provide Education on Antimicrobial Stewardship Practices in Animals

Opportunity to develop innovative ways to disseminate information about the health risks associated with antimicrobial resistance and the benefits of implementing good antimicrobial stewardship practices for managing diseases in food-producing animals. Adopting good antimicrobial stewardship practices, including optimizing how antimicrobials are used as part of herd/flock disease management plans, can help slow the development of antimicrobial resistance while effectively managing animal disease.

Application Deadline: 3/31/22 | [View Opportunity](#)

Innovations in Nutrition Programs and Services—Research

The purpose of this funding opportunity is to support research and documentation of innovative and promising practices and policies, including those that have emerged during the COVID-19 pandemic, that have the potential that enhance the quality, effectiveness, and proven outcomes of nutrition services programs within the aging services network.
