Funding Opportunities Weekly Digest –

March 10, 2020

[Upcoming Event](#)

AgResearch is pleased to announce the joint Grantsmanship Training Workshop in collaboration with the UT College of Veterinary Medicine and Hanover Research. All UTIA faculty (teaching, research, Extension, and CVM) are encouraged to attend. This is a great opportunity to meet your peers who may share similar interests and could potentially lead to the development of new research collaborations.

Thursday, April 9, 2020, All Day, Hollingsworth Auditorium

Grantsmanship Training Workshop (Consultants from Hanover Research)

The Health, Ecosystems and Agriculture for Resilient, Thriving Societies (HEARTH)

Agency for International Development

Addendum aims to provide USAID Missions and the private sector a flexible opportunity to partner in the co-creation and delivery of high-impact activities that conserve biodiverse ecosystems and improve the well-being and prosperity of communities that depend on them. Concepts include biodiversity conservation, health, food security (agriculture and nutrition), governance, economic development and livelihoods, water supply and sanitation, education, modern energy solutions, forest management and restoration, and climate resilience.

FY 2020-21 Pollution Prevention Grant Program

Application Deadline: 3/31/20 | [View Grant Opportunity](#)

FY 20-21 Source Reduction Assistance Grant Program

Supports research, investigation, study, demonstration, education, and training using source reduction approaches (also known as “pollution prevention”), which means reducing or eliminating pollutants from entering any waste stream or otherwise released into the environment prior to recycling, treatment, or disposal. Looking for approaches to measurably improve the public health and the surrounding environment by reducing the use of hazardous substances, reducing toxic pollutants, supporting efficiencies in reducing resource use (e.g., water and energy), and reducing business expenditures and liability costs.

Future Manufacturing

The goal of this solicitation is to support fundamental research and education of a future workforce that will enable Future Manufacturing: manufacturing that either does not exist today or exists only at such small scales that it is not viable. Future Manufacturing will require the design and deployment of diverse new technologies for synthesis and sensing and new algorithms for manufacturing new materials, chemicals, devices, components, and systems. It will require new advances in artificial intelligence and machine learning, new

cyber infrastructure, new approaches for mathematical and computational modeling, new dynamics and control methodologies, new ways to integrate systems biology, synthetic biology and bioprocessing, and new ways to influence the economy, workforce, human behavior, and society.

LOI Due: 4/10/20 | Application Deadline: 6/5/20 | [NSF 20-552](#)

Opportunity for Individuals

Supplementary Grants for Researchers with Family Commitments

(NIH) aims to help junior scientists to navigate family commitments and major life challenges by offering [supplementary grants](#) that permit them to [step away from the laboratory](#) for up to one year. Scientists experiencing “critical life events,” such as giving birth or caring for a sick relative, can use the money to keep the lab running in their absence by buying equipment or hiring help.

NIH announces \$1 million prize competition to target global disease diagnostics

Accelerator Challenge to spur the design and development of noninvasive, handheld, digital technologies to detect, diagnose, and guide therapies for diseases with high global and public health impact. The current challenge is designed to stimulate the development of a platform technology that could be used to rapidly screen large populations as well as provide physicians with a practical tool for optimizing therapy in individual patients. CONSERVATION, FOOD & HEALTH FOUNDATION

The Conservation, Food and Health Foundation

Seeks to protect natural resources, improve the production and distribution of food, and promote public health in Asia, Africa, Latin America, and the Middle East. The foundation helps build the capacity of organizations and coalitions with grants that support research or improve the learning and generation of local solutions to complex problems. The foundation supports projects that demonstrate local leadership and promote professional development in the conservation, agricultural, and health sciences; develop the capacity of local organizations; and address a particular problem or question in the field. It prefers to support projects that address underfunded issues and geographic areas.

Concept notes due: 07/01/20 | Proposal Deadline: 9/3/20 | [View Opportunity](#)

[Lever for Change](#), a new nonprofit committed to unlocking philanthropic capital and helping donors put their resources to work to accelerate social change around the world's biggest challenges.
