# Funding Opportunities Weekly Digest–May 24, 2022

**To notify the Office of Sponsored Programs (OSP) of your intent to apply for any of these or other grant opportunities, please submit a** Proposal Intake Questionnaire **to provide OSP with preliminary information.**

**Check out the** Office of Sponsored Programs website **to view more** funding opportunities **to consider.**

**The GusNIP-Nutrition Incentive Program**
Opportunity to bring together stakeholders from various parts of the food and healthcare systems to foster understanding of how they might improve the health and nutrition status of participating households.
Application Deadline: 6/30/22 | View Opportunity

**The Gus Schumacher Nutrition Incentive Program-Produce Prescription Program**
The primary goal and objective of this program is to demonstrate and evaluate the impact of projects on (1) the improvement of dietary health through increased consumption of fruits and vegetables; (2) the reduction of individual and household food insecurity; and (3) the reduction in healthcare use and associated costs.

**Agricultural Genome to Phenome Initiative (AG2PI)**

This program focuses on collaborative science engagement that intends to develop a community of researchers across both crops and animals that will lay the foundation for expanding knowledge concerning genomes and phenomes of importance to the agriculture sector of the US. AG2PI supports multiple goals within the USDA Science Blueprint, USDA Innovation Agenda, the Genome to Phenome: USDA Blueprint for Animal Genomics Research, and relevant publicly initiated and led crop research initiatives to catalyze and coordinate research linking genomics and predictive phenomics to achieve advances that generate societal and environmental benefits.

Application Deadline: 7/21/22 | View Opportunity

**Agriculture and Food Research Initiative-Sustainable Agricultural Systems**

This opportunity focuses on approaches that promote transformational changes in the US food and agriculture system. NIFA seeks creative and visionary applications that take a systems approach for projects are expected to significantly improve the supply of affordable, safe, nutritious, and accessible agricultural products, while fostering economic development and rural prosperity in America. These approaches must demonstrate current needs and anticipate future social, cultural, behavioral, economic, health, and environmental impacts. Additionally, the outcomes of the work being proposed should result in societal benefits, including promotion of rural prosperity and enhancement of quality of life for all those involved in food and agricultural value chains from production to utilization and consumption.

Application Deadline: 7/28/22 | View Opportunity

**Upcoming Application Deadlines:**

- **June 6:** National Plant Diagnostic Network for the Food and Agriculture Defense Initiative
- **June 15:** Equipment Grant Program
- **June 29:** Supplemental and Alternative Crops
- **June 30:** The Gus Schumacher Nutrition Incentive Program - Produce Prescription Program
- **Multiple Deadlines:** AFRI Education and Workforce Development Program

**online** Proposal Intake Questionnaire **as soon as you start planning** to provide preliminary information about your prospective proposal.

Please recall that there are **broader global collaborative efforts** available with Ireland and Northern Ireland for certain applications. Contact Tom Gill if you are planning or need assistance to develop partnerships.

All applicants who meet the eligibility requirement as a **New Investigator** will also be eligible to apply for a **seed grant**, as well as for a New Investigator (standard) grant. | Helpful Hints for New Investigator

**2022 Canine Health Topics Request for Proposals**

of disease, prevalence and epidemiological approaches to health concerns, clinical application of research findings, and topics related to life stages, society, population health, preventive medicine, and/or emerging issues. Other areas could address the human-animal bond; including but not limited to veterinary social work, dog assisted interventions, or improving collaboration among private for-profit and non-profit veterinary service providers.
Application Deadline: 8/18/22 | View Opportunity

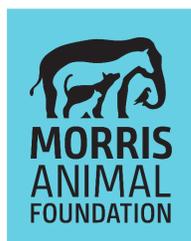

### Proposals for Studies Focused on Five Common Health Issues Impacting Cats

Accepting proposals for studies focused on five of the most common health issues in cats: cancer, dental disease, cognitive dysfunction disease, behavior, and shelter medicine. Feline health and welfare are the primary considerations.
Application Deadline: 8/5/22 | View Opportunity

### Proposals for Common Canine Health Issues

This new funding opportunity is for studies focused on several of the most common health issues in dogs: canine periodontal disease, otitis externa, obesity, and anal sac disease. Proposals must address specific areas within those themes and should have a strong emphasis on situations seen in primary care practices and shelters unless otherwise indicated.
Application Deadline: 8/12/22 | View Opportunity

As a reminder, AgResearch and College of Veterinary Medicine faculty can work directly with Hanover grant consultants for assistance on grant proposal preparation. If you're interested in consultation services for a specific proposal, please visit our website and fill out a project request submission form.

If you have any questions or you would like to learn more about our work with these programs, please contact senior grants advisor Clinton Doggett for a brief conversation.
