sustainability of rural health.

Application Deadline: 10/12/21 | [View Opportunity](#)

Ecology and Evolution of Infectious Diseases

Research proposals should focus on understanding the determinants of transmission of diseases to humans, non-human animals, or plants; the spread of pathogens by environmental factors, vectors, or abiotic agents; the population dynamics and genetics of reservoir species or alternate hosts; or the cultural, social, behavioral, and economic dimensions of disease transmission.

WHERE DISCOVERIES BEGIN

Materials Research Science and Engineering Centers (MRSEC)

The MRSEC supports materials research infrastructure in the US, promotes active collaboration between universities and other sectors, including industry and international organizations, and contributes to the development of a national network of university-based centers in materials research, education, and facilities.

Application Deadline: 11/22/22 | [View Opportunity](#)

Ecology and Evolution of Infectious Diseases

The multi-agency Ecology and Evolution of Infectious Diseases program supports research on the ecological, evolutionary, organismal, and social drivers that influence the transmission dynamics of infectious diseases.

Application Deadline: 11/24/21 | [View Opportunity](#)

Postdoctoral Research fellowships in Biology (PRFB)

Application areas are: broadening participation of groups underrepresented in biology; integrative research investigating the rules of life governing interactions between genomes, environment and phenotypes; and plant genome postdoctoral research fellowships.

Application Deadline: 12/6/21 | [View Opportunity](#)

Integrative Research in Biology (IntBIO)

Inviting research to produce novel, holistic understanding of how biological systems function and interact across different scales of organizations from molecules to cells, tissues to organisms, species to ecosystems and the entire earth. Such knowledge is critical to inform solutions to societal challenges, including natural resource management, resilience to environmental change, and global food security.

Application Deadline: 1/25/22 | [View Opportunity](#)

Foundations

Climate Change and Human Health Seed Grants

The Burroughs Wellcome Fund aims to stimulate growth of new connections between scholars working in largely disconnected fields who might together change the course of climate change's impact on human health.

Proposal Accepted with a Rolling Deadline: 9/1/21 through 8/30/23

Next proposal Review 10/10/21 | [View Opportunity](#)

Request for Proposals on behalf of the National Honey Board

Proposals should focus on enhancing the health, survival, and productivity of honeybee colonies, which provide practical and tangible solutions to the beekeeping industry.

Application deadline 10/3/21 | [View Opportunity](#)

People, Parks, and Power: A National Initiative for Green Space, Health Equity, and Racial Justice (P3 Initiative)

The Robert Wood Johnson Foundation is working to build a culture of health where everyone in America has a fair and just opportunity to live the healthiest life possible. The P3 initiative is grounded in the premise that urban parks are essential community infrastructure that should serve every neighborhood in a fair, just, and safe manner, without displacing longtime residents or community-

2022 Call For Proposals

To involve collaborative efforts at various sites across the region between small fruit growers and grower organizations, industries and service organizations allied with and/or serving small fruit growers, and agricultural extension programs and research stations working together to enhance the development of the small fruit industries in the region.

Application Deadline: 10/22/21 | [View Opportunity](#)

WHITEHALL FOUNDATION

Research Grants

Research grants are available to established scientists of all ages working at accredited institutions in the US. Applications will be judged on the scientific merit and the innovative aspects of the proposal as well as on the competence of the applicant.

Grants-in-Aid

The Grants-in-Aid program is designed for researchers at the assistant professor level who experience difficulty in competing for research funds because they have not yet become firmly established.
