The Tennessee Corn Promotion Board (TCPB) works to enhance the value of corn by creating and/or facilitating the discovery of new efficiencies and new opportunities for increased profitability.

Program area priorities:

- **Enhancing Demand and Adding Value** - Tennessee's corn farmers have the ability to grow more corn than consumers can utilize as food or feed. In order to sustain the economic viability of corn farmers, it is critical that we discover new uses and markets for Tennessee's corn crop that meet the needs of a growing and evolving world.
- **Ensuring Sustainability** - Help farmers increase production efficiency and profitability while safeguarding and improving the natural resources needed for agriculture. TCPB will support research that will lead toward a regionally integrated system of plant and animal production practices designed to produce long-term results.

Application Deadline: 11/14/22 | [View Opportunity](#)
