Funding Opportunities Weekly Digest–October 12, 2022

To notify the Office of Sponsored Programs (OSP) of your intent to apply for any of these or other grant opportunities, please submit a [Proposal Intake Questionnaire](#) to provide OSP with preliminary information.

Check out the [Office of Sponsored Programs website](#) to view more [funding opportunities](#) to consider.

State

TWRA Tennessee Riparian Tree Planting Grant

Tennessee Wildlife Resources Agency (TWRA) announces the availability of grant dollars to assist cities, schools, community organizations, civic groups, watershed organizations, and conservation groups, etc., with riparian tree planting projects. Tree planting season in Tennessee is December through March.

Five grants of \$500 each are available.

United States Department of Agriculture
National Institute of Food and Agriculture

Food and Agriculture Service Learning Program

Opportunity to increase knowledge of agriculture and improve the nutritional health of children.

Application Deadline: 12/8/22 | [View Opportunity](#)

Specialty Crop Research Initiative

Opportunity to solve critical US specialty crop issues, priorities, or problems through the integration of research and extension activities that use systems-based, trans-disciplinary approaches. The intent of the SCRI program is to address the needs of the various specialty crop industries through the promotion of collaboration, open communication, the exchange of information, and the development of resources that accelerate application of scientific discovery and technology.

Pre-Application Deadline: 1/12/23 | [View Opportunity](#)

Biotechnology Risk Assessment Research Grants Program

Opportunity to support environmental assessment research concerning the introduction of genetically engineered organisms into the environment.

Application Deadline: 1/19/23 | [View Opportunity](#)

National Institute of Food and Agriculture has announced a new program priority area:

Center of Excellence for Meat and Poultry Processing and Food Safety Research and Innovation

The program priority area will incorporate basic and applied science, engineering in meat and poultry processing, and food safety-related disciplines to promote technological innovation and lower barriers to entry for the industry.

Application Deadline: 11/3/22 | [View Opportunity](#)

Dual Purpose with Dual Benefit: Research in Biomedicine and Agriculture Using Agriculturally Important Domestic Animal Species

The objective of this opportunity is to encourage optimal utilization of large domestic animals in high-priority areas of biomedical and agricultural research. This initiative is designed to facilitate and encourage carefully designed research studies through meticulous selection of farm animals that mimic human developmental, physiological, and etiological processes to better understand the biology of normal reproduction and reproductive pathophysiology, normal and abnormal metabolism, developmental origin of diseases, precision nutrition, and improve prevention and treatment of diseases in both human and agriculturally important domestic farm animals.
