Youth Engagement, Education, and Employment

The purpose of this program is to provide work and education opportunities for youth (defined as ages 16-30 inclusive, and up to age 35 for veterans) participants in the areas of natural and cultural resource conservation, development, and scientific research. Participants perform work on our nation's public lands by providing additional, unique capacity designed to boost the impact of the service for the conservation and management of fish, wildlife, plants and their habitats for the American people.

Application Deadline: 9/10/23 | [View Opportunity](#)

United States Department of Agriculture
National Institute of Food and Agriculture

Food and Agriculture Service Learning Program

The purpose of this program is to increase the knowledge of agricultural science and improve the nutritional health of children. The program's goal is to increase the capacity for food, garden, and nutrition education within host organizations or entities, such as school cafeterias and classrooms, while fostering higher levels of community engagement between farms and school systems by bringing together stakeholders from distinct parts of the food system.

USAID/Philippines' New Higher Education Activity

This activity will strengthen the Philippine higher education system to support broad-based, inclusive growth and become a key driver of development. It will do this by strengthening the innovation capacities and workforce development functions of Philippine higher education institutions (HEIs) in faculty development, curriculum improvements, and engagement with industry and international partners, as well as overall improvements in HEI management and administration. It will also support improvements in the regulatory environment to improve governance in the sector, support Philippine policies in strengthening human capital development, and provide a platform for convergence for local stakeholders to work together in achieving shared development goals.

Application Deadline: 12/22/22 | [View Opportunity](#)
