To notify the Office of Sponsored Programs (OSP) of your intent to apply for any of these or other grant opportunities, please submit a Proposal Intake Questionnaire to provide OSP with preliminary information.

Check out the Office of Sponsored Programs website to view more funding opportunities to consider.

Federal

Cleaner Cooking and Reducing Household Energy Emissions
Availability of funds to improve climate, environment, health, gender, and livelihoods by reducing emissions in low- to middle-income countries from household energy use (home cooking, heating, and lighting) and promoting the sustained use of clean and cleaner technologies and fuels.
Application Deadline: 2/28/23 | View Opportunity
Agriculture Innovation Center Grant Program
The purpose of this program is to establish and operate Agriculture Innovation Centers that provide technical and business development assistance to agricultural producers seeking to engage in developing and marketing of value-added agricultural products.
Application Deadline: 3/6/23 | View Opportunity

Enhancing Real Pork Trust and Image Through Communication, Research, and Training
The National Pork Board will soon be soliciting proposals from groups of subject matter experts to work collaboratively to address questions about pork and pork production through communication, research, and training.
Application Deadline: 3/14/23 | View Opportunity

Application Deadlines:
- February 13: Crop Protection and Pest Management
- February 13: Methyl Bromide Transition Program

Division of Environmental Biology (DEB) Core Programs
The Division of Environmental Biology Core supports research and training on evolutionary and ecological processes acting at the level of populations, species, communities, and ecosystems. The division encourages research that elucidates fundamental principles that identify and explain the unity and diversity of life and its interactions with the environment over space and time.
Application Deadline: Accepted Anytime | View Opportunity

Partnerships for Innovation—Research Partnerships Track
The Partnerships for Innovation Program within the Division of Translational Impacts offers researchers from all disciplines of science and engineering who are funded by NSF the opportunity to perform translational research and technology development, catalyze partnerships, and accelerate the transition of discoveries from the laboratory to the marketplace for societal benefit.
Application Deadline: 5/2/23 | View Opportunity

Division of Molecular and Cellular Biosciences Core Programs (MCB)
Supports research that promises to uncover the fundamental properties of living systems across atomic, molecular, subcellular, and cellular scales. The division also encourages research that exploits experimental and theoretical approaches and utilizes a diverse spectrum of model and non-model animals, plants, and microbes across the tree of life.
Application Deadline: Accepted Anytime | View Opportunity

Cooperative Agreement to Support the Food and Agriculture Organization
Opportunity to support global strategies that address food safety and public health.
Application Deadline: 3/7/23 | View Opportunity

Smith Center Accepting Award Nominations for 2023

The Smith Center for International Sustainable Agriculture was established with the vision of positioning the University of Tennessee Institute of Agriculture as an organizational leader for global engagement in the agricultural-related sciences among US land-grant institutions. We do this work by empowering UT faculty, staff, and students to be global change agents, who partner with others to develop and deploy sustainable solutions to the world’s complex, agriculture-related challenges. The Smith Center will present six awards across two award categories (faculty/staff and students) in 2023. Please consider nominating a deserving colleague or student for one of the following:

UTIA Faculty and Staff Global Engagement Awards

- Faculty Lifetime Achievement Award
- Faculty Global Excellence Award
- Outstanding Staff Global Engagement Award

Nominations are due by **April 21, 2023**. Questions should be directed to Carrera Romanini at carrera@tennessee.edu or 865-974-7340.

Foundations and Nonprofits

Preventive & Early Intervention Canine Medicine and Health

The mission is to advance the health of all dogs and their owners by funding sound scientific research and supporting the dissemination of health information to prevent, treat, and cure canine disease. Canine Health Foundation supports a One Health model as a critical tool to achieving this
Study of Canine Hemangiosarcoma
Accepting proposals for studies focused on preventing, detecting, and treating canine hemangiosarcoma. Hemangiosarcoma is the most frequently observed cancer diagnosis in the Golden Retriever Lifetime Study cohort and represents about 70 percent of all primary endpoint cancer deaths.
Application Deadline: 4/5/23 | View Opportunity

Study of Canine Inflammatory Bowel Disease
Accepting proposals for studies focused on canine idiopathic inflammatory bowel disease, a complex disorder arising from a combination of factors including genetic predisposition, microbiome changes, and altered immune response.
